

A.B.M ALL-ADDIN

Software Developer Intern Candidate

+880 1568-924935 | info.addincse@gmail.com | Dhaka, Bangladesh
github.com/addin-alt

PROFESSIONAL SUMMARY

Recently graduated BSc Computer Science and Engineering professional with a strong foundation in .NET and web application development. Passionate about building scalable, functional software with hands-on experience across 20+ personal and academic GitHub projects spanning ASP.NET MVC, Python, JavaScript, and Java. Highly motivated to grow within a structured, enterprise-level development environment, with an advanced command of English and a proven drive to learn independently and contribute meaningfully in team settings.

EDUCATION

Bachelor of Science in Computer Science & Engineering

International University of Business Agriculture and Technology (IUBAT)

CGPA: 3.49 / 4.00

Dhaka, Bangladesh

Graduated 2026

TECHNICAL SKILLS

Languages:	C#, Python, JavaScript, Java, C++, HTML, CSS
Frameworks:	ASP.NET MVC, ASP.NET Core, Django
Web Dev:	Web Application Development, Responsive Design, REST APIs
Databases:	MySQL, JSON-based storage
Tools:	Git, GitHub, Visual Studio, VS Code
Concepts:	OOP, DFA/Algorithms, CPU Scheduling, Blockchain Fundamentals
Soft Skills:	Advanced English (C1), Self-directed Learning, Team Collaboration

KEY PROJECTS

Inventory Management System

ASP.NET MVC | C# | MySQL

- Built a full-stack web application for tracking products, stock levels, and sales using ASP.NET MVC architecture
- Implemented CRUD operations, user authentication, and real-time stock monitoring features
- Designed relational database schema in MySQL for robust data management

Sales and Inventory Management System

Python | Django | HTML

- Developed a Django-based business management system with user authentication and real-time inventory tracking
- Implemented sales recording, stock level monitoring, and reporting features for business operations

Flight Reservation System

Python

- Designed a software application to manage flight searching, booking, and ticket management workflows
- Implemented availability checking, reservation creation, and booking management modules

Doc-to-PDF Converter (Full Stack)

Python | CSS | REST API

- Built a full-stack DOCX-to-PDF conversion tool with a responsive frontend and Python-powered backend API
- Demonstrates understanding of client-server architecture and API integration

SecureDFA Access Control System

Python

- Implemented a DFA-based smart building access control system with strict authentication sequences per zone
- Applied Automata Theory to build a real-world security system with robust error handling

Blockchain Implementation

Python

- Built a Python blockchain from scratch supporting transaction tracking, block mining, and sender/recipient queries
- Demonstrates understanding of distributed systems and cryptographic data structures

CERTIFICATIONS

WordPress Development

2025

Coursera — Web Development Track

ADDITIONAL INFORMATION

GitHub: github.com/addin-alt | 20+ public repositories

English: Advanced – C1 Level (Upper-Intermediate and above as required)

Work Style: Remote-ready, self-motivated, able to manage independent study and team tasks

Availability: Immediately available for full-time internship
